DP Purifier Lamp and Pollution System

18/05/2026

We hereby confirm that DP – Purifier Lamp and Pollution System has installed high-quality air filtration systems at the German School in Riyadh. The installation took place throughout the kindergarten area and in the principal's office.

Since the DP air filtration systems were put into operation, the air quality in the rooms has improved significantly. This is particularly evident in the noticeably fresher, cleaner air and the overall more pleasant indoor climate.

After checking with the kindergarten, the teachers report that the children seem to be getting sick slightly less often.

We would like to thank Mr. Jasseb for his professional advice, the reliable implementation, and the high quality of the systems delivered. We are happy to recommend DP-Filter System as a competent and reliable partner for air purification solutions.
