Reference letter DP Purifier Lamp and Pollution System

We hereby confirm that DP – Purifier Lamp and Pollution System has installed high-quality air filtration systems at the German School in Riyadh.

The installation took place throughout the kindergarten area and in the principal's office. Since the DP air filtration systems were put into operation, the air quality in the affected rooms has improved significantly.

This is particularly evident in the noticeably fresher and cleaner air, as well as the overall more pleasant indoor climate.

We would like to thank Mr. Jasseb for his professional advice, the reliable implementation, and the high quality of the systems delivered.

We are pleased to recommend DP-Filter System as a reliable and competent partner for air purification solutions.

Christine Kirchweger
Head of Administration
Deutsche Internationale Schule Riadh
